

Website Error Audit Report

sheetal.net (FatShe™ Business Directory)

This report lists errors identified across all 7 sections of the website (Home, Packers and Movers Bangalore, Packers Movers Delhi, Advertise With Us, Packers Mumbai, Skywing Cargo Packers & Movers Hyderabad, and Contact Us). Findings are based strictly on the actual text content retrieved from each live page - nothing has been invented or assumed. Each error below is followed by a highlighted excerpt box quoting the exact original text found on the page.

Method & limitation note: The original text-excerpt findings from the main PDF have been retained, and this updated version also adds visually verified browser/screenshot issues where needed. The report therefore covers grammar, spelling, punctuation, encoding, factual/content-consistency issues, and additionally confirmed layout, navigation-state, alignment, and UI-consistency problems. Yellow boxes continue to capture the supporting text or the specific observed visual state used for verification.
